

Facundo Jeremias Juarez

Electronics Technician specializing in Telecommunications

- City La Matanza, Bs. As, Argentina
- E-mail facundojuarez828@gmail.com
- Phone Number +54 9 11 3216 2567
- Linked In www.linkedin.com/in/facundo-jeremias-juarez-34nxe93dhb2

Profile

Final-year Electronics student at a technical high school. Experienced with lab instruments (oscilloscope, multimeter, spectrum analyzer) and embedded projects using PIC, AM modulation, UART, MQTT, C++, and Python. Looking for an entry-level role in electronic circuit maintenance or design.

Education

Electronics Technician + Telecommunications | Instituto Madero | (2020 – Present)

Villa Madero, Buenos Aires, Argentina

- Currently in 7th and final year.
- Expected graduation: December 2026

English B2 Certified | Cambridge | (2025)

Buenos Aires, Argentina

Installer and Computer Systems Support Course + Cisco Course | Instituto Madero | (2025)

Villa Madero, Buenos Aires, Argentina

AutoCAD Course – Virtual – UTN FRBA – (2022)

Buenos Aires, Argentina

Skills

- Oscilloscope, multimeter, spectrum analyser
- Simulation and design software: AutoCAD, Proteus, Multisim, KiCAD
- Programming: C++, Python
- Microcontrollers: Arduino, ESP32, PIC16F877A
- Computer repair, support and installation
- Reading and interpreting electrical and electronic schematics
- THT soldering (proficient), SMD soldering (basic)
- Basic Office suite (Word, Excel)

Projects

- Adjustable power supply with current limiter, 30V and 60W | (2023)
- Function generator from 1Hz to 1MHz | (2024)
- AM DBSFC modulator with 3.4MHz carrier | (2025)
- Development boards with PIC16F877A connected via UART protocol | (2025)
- Competition SUMO robot representing the school | (2023 – Present)

Experience

Technical Intern | IE Service (Stromberg Official Technical Service) | (2026 – Present)

Villa Madero, Buenos Aires, Argentina

- Troubleshoot and serviced 10+ electronic devices weekly as part of a school-organized internship.
- Resolved customer technical inquiries and provided on-site support at the central service location.
- Streamlined workspace organization, improving overall workshop efficiency.

Freelance Electronics Repair Technician | (2025 – Present)

La Tablada, Buenos Aires, Argentina

- Repaired over 20+ electronic devices including hair straighteners, hair dryers, PS joysticks, analog radios, headphones, and screwdrivers.
- Achieved almost 90% repair success rate through systematic methods of diagnosis.
- Managed customer communication and parts sourcing.
